

Washguard®
Industrial-Duty
Electric Motors

The motor line that stands up
to washdown.

A Regal Brand

REGAL

Nothing sheds water

LEESON Washguard® Industrial-Duty Motors.

like a duck.

LEESON Washguard® motors deliver something most motors can't—the confidence to know your applications will be up and running no matter what you throw at them. Whether you need a motor that handles an occasional splash, or a solution that handles continuous washdown 24/7, LEESON's broad range of Washguard® industrial-duty motors can take it.

Choose a solution that's USDA approved, FDA approved, BISSC Certified, or a motor with IP55 enclosure protection—to name just a few. If you're looking for answers to tough application issues, LEESON is ready when you bring it on.

WhiteDuck

Suited for an occasional washdown, White Duck is the LEESON Washguard® Series that started it all. Choose AC and DC ratings, 1/3–15HP.

RATINGS:

IP55 enclosure protection
USDA-approved white epoxy finish

The White Duck series is geared for applications exposed to an occasional washdown. Coated in a high-gloss, high-durability, FDA-approved white epoxy finish, White Duck Washguard® Motors find a perfect fit in conveying, bottling, food packaging, pumping and fan applications—wherever batch or process requirements demand reliable performance.

BENEFITS:

- Durable white epoxy finish for superior protection
- Stainless steel shaft, hardware, conduit box, cover and nameplate
- Buna-N gaskets and Viton® shaft seals on both ends of TEFC designs
- Drains for all mounting orientations enable flexible installation
- NEMA Premium—140 Frame and higher
- Moisture-resistant interior coating inhibits corrosion
- Inverter-rated IRIS™ insulation system—1HP and higher
- Single-phase motors feature an electronic solid-state switch for worry-free starting in high-vibration installations

Jet Pump & JM Pump

- 3/4–3HP designs
- 1–15HP JM Pump designs
- C-Face, with and without base
- EPACT efficient

Brakemotor Designs

- 1/2–2HP designs
- 208–230/460 Volt Three-Phase
- Stearns® brakes
- Optional washdown brake kits

NEMA Three-Phase Designs

- 1/4–15HP designs
- 230/460 and 575 Volts
- Rigid base and C-Face designs
- EPACT and Premium efficient
- Inverter rated

DC Gearmotor Designs

- P300, PE350 and Right-angle Series
- 90 and 12 Volt designs
- Stainless steel exterior hardware
- Precision-machined gears

NEMA Single-Phase Designs

- 1/3–2HP designs
- C-Face, with and without base
- Solid-state starting switch

AC Gearmotors

- P240 and Right-angle Series
- 115/230 Volt Single-Phase designs
- 230 Volt Three-Phase designs
- 304 Series stainless output shafts
- Needle bearings for high-output torque

NEMA DC Designs

- 1–1.5HP designs
- 90 and 180 Volts
- Removable base
- IEC B5 flange ratings available
- 1/8–1/4HP 12 Volt designs

Washguard® II Stainless Duck

The Washguard® II Series is an ideal solution for conveying applications in bakeries and food-processing plants with its paint-free finish. AC ratings from 1/2–2HP.

RATINGS:

IP55 enclosure protection

BISSC certified for the baking industry, authorization no. 769

Tested and approved to handle 2,500 hours of diluted salt spray, the Washguard® II Series—with its paint-free design—is well suited for the demanding environments of bakeries and food processing facilities, as well as conveying.

BENEFITS:

- Paint-free exterior
- Moisture-resistant interior coating inhibits corrosion
- IRIS™ insulation system—1HP and higher
- Stainless steel shaft, hardware, conduit box, cover, nameplate and fan guard
- Specially-processed endshields and conduit box housing
- Buna-N gaskets and Viton® shaft seals
- Drains for all mounting orientations enable flexible installation

Three-Phase Designs

- Three-Phase, C-Face motors with base, 1/2–2HP
- Three-Phase, C-Face motors less base, 1/2–2HP
- TENV designs
- Inverter rated

When a paint-free motor is needed for ultra-clean operations in the food processing, bottling and pharmaceutical industries, count on LEESON SST Duck motors to meet the need—at a price that defines value.

BENEFITS:

- All stainless steel exterior
- Moisture-resistant interior coating inhibits corrosion
- Full-face nameplate is laser etched in the motor frame
- Buna-N gaskets and Viton® shaft seals on both ends
- Drains for all mounting orientations enable flexible installation

The SST Duck Series is our value line of stainless steel motors that is appropriate for use in food processing, pharmaceutical, conveying and bottling applications. 1/3–3HP single- and three-phase designs.

RATINGS:

IP55 enclosure protection
Inverter rated
10:1 constant torque

Single-Phase Designs

- 1/2–2HP, Single-Phase, C-Face with base
- 1/2–2HP, Single-Phase, C-Face less base
- High starting torque
- 115/230 Volt

Three-Phase Designs

- 1/3–3HP, Three-Phase, C-Face with base
- 1/3–3HP, Three-Phase, C-Face less base
- Inverter rated
- 10:1 constant torque

Premium Stainless Duck

Our Premium Stainless Duck motor line meets IEEE-841 severe duty requirements and passes IP56 test requirements. These motors are proven performers in frequent washdown applications. AC and DC ratings available.

RATINGS:

IP56 enclosure protection
300 series stainless steel
3-year warranty—Premium efficiency

Look to the Premium Stainless Duck Series for proven durability in frequent washdown applications that you may find in food processing, pharmaceutical, dairy, chemical-processing and beverage and bottling industries.

BENEFITS:

- All exterior components are 300-series stainless steel
- Full-face nameplate is laser etched in the motor frame
- Endshields are O-ring sealed to motor frame
- Double lipped Viton® shaft seals
- Interior components are coated to protect against corrosion
- Hydrophobic breather plugs are used on AC designs
- Inverter-rated IRIS™ insulation system—AC designs
- IP56 enclosure protection
- 3-year warranty—Premium efficient models
- Shaft grounding rings (SGR) designs available – 1/2–2HP

General Purpose Premium Stainless

- Three-Phase, C-Face with base, 1/2–10HP
- Three-Phase, C-Face less base, 1/2–5HP
- Single-Phase, C-Face with base, 1/3–2HP
- Single-Phase, C-Face less base, 1/3–2HP

IEC Stainless

- B5 Flange: Round Body, 0.25KW (1/3HP)–1.5KW (2HP) 71 Frame, 80 Frame and 90 Frame
- B5 Flange: Rigid Base, 0.25KW (1/3HP)–0.55KW (3/4HP), 80 Frame
- B14 Flange: Round Body, 0.25KW (1/3HP)–0.55KW (3/4HP), 71 Frame and 80 Frame
- B14 Flange: Round Body, 0.25KW (1/3HP)–0.55KW (3/4HP), 80 Frame

Stainless Brake Motor

- Three-Phase, TENV, C-Face with base, 1/2–2HP
- Stearns® stainless steel brakes, 3- and 6-ft lb. rated

Stainless JP Pump Motors

- Three-Phase, TEFC, 1–10HP
- 1800 and 3600 RPMs
- EPACT efficient

Our Hydro Sealed System HS² protects from the “outside-in” by reducing entrance points of contaminants. The innovative design eliminates the needs for drain plugs or breathers. This design also minimizes exterior hardware and reduces surfaces that may trap application elements. Put Extreme Duck motors to work in food processing and pharmaceutical applications, as well as sewage treatment plants, beverage and bottling industries.

BENEFITS:

- Maximum interior encapsulation eliminates contamination of windings
- Rotor/Cartridge, “Q-CAR™” design for quick access to motor interior
- Protech bearing isolator used for output shaft seal
- Full-face nameplate is laser etched in the motor frame
- O-ring sealed, screw-on conduit box covers
- IP66 enclosure protection
- 3-year warranty
- Shaft grounding rings (SGR) designs available – 1/2–2HP

Our Extreme Duck stainless steel motors take washdown motor solutions to a whole new level. The encapsulated design of these motors was built using “voice of the customer” criteria to withstand severe washdown and sanitation requirements.

RATINGS:

- IP66 enclosure protection
- Maximum interior encapsulation
- Minimal exterior hardware
- 3-year warranty

Three-Phase Designs

- 1/3–3HP, Three-Phase, C-Face with base
- 1/3–3HP, Three-Phase, C-Face less base
- Inverter rated
- 10:1 constant torque

Milk Transfer Pump & Milk Tank Washer Motors

Our milk transfer pump motors are replacements for Surge® milk pumps. These motors have Washguard® motor features that withstand high pressure washdown applications.

RATINGS:

Epoxy painted
300 series
stainless steel
3-year warranty

LEESON has introduced a line of milk transfer pump and milk tank washer duty motors available in both epoxy paint and stainless steel. These motors are designed to withstand the frequent washdown conditions found in these applications and to meet the sanitation requirements that are practiced in this industry. They have the design features that will mount up to either a Surge®, Delaval® or Bou-Matic® dairy milk pumps.

BENEFITS:

- Epoxy painted motors
- Stainless motors have exterior components that are 300-series stainless steel
- Double sealed ball bearings
- Three-Phase motors are inverter rated
- Capacitor supplied loose with PSC motor

Milk Transfer Pump Motors

- Replacements for Surge® milk pumps
- ½HP and 1HP
- Epoxy painted and stainless steel
- Single and Three-Phase designs
- 3450 RPMs

Threaded Shaft Milk Pump Motors

- Replacements for Bou-Matic® milk pumps
- ½HP and 1HP
- Epoxy painted and stainless steel
- 1 & 3-Phase designs
- 3450 RPMs

Keyed Shaft Milk Pump Motors

- Replacements for Delaval® milk pumps
- ½ HP through 2HP
- Stainless steel
- Single and Three-Phase designs
- 3450 RPMs

Tanker Washer Motor

- Epoxy painted
- 1HP – Single-Phase
- Threaded shaft
- C-Face less base
- Solid state encapsulated starting switch

All Stainless DC Motors

Our Washguard® DC stainless steel motors hold up in frequent washdown applications.

RATINGS:
IP55 enclosure protection
NEMA & IEC Washguard®
3-year warranty

The stainless steel, Washguard® duty, DC motors meet IP-55 test requirements. These SCR rated DC motors have proven to hold up when used in frequent washdown applications. The conduit box is located at the 12:00 position, making electrical connections accessible in various mounting positions. Maximize your application requirements by using one of our washdown duty DC motor controls that are matched to optimize performance with these stainless steel DC motors.

BENEFITS:

- All exterior components are 300-series stainless steel
- Full fact nameplates are laser etched in motor frame
- Endshields are O-ring sealed to motor frame
- Double lipped Viton® shaft seals
- Constant torque throughout speed range
- Oversized brushes for long brush life

C-Face With Base and C-Face Less Base

- ¼HP to 1HP
- 90 Volt and 180 Volt

Washdown Duty AC & DC Controls

These AC and DC controls are matched to our Washguard® motors for optimal performance.

RATINGS:

IP65 on stainless steel and vector series

IP65/IP54 on epoxy coated

White epoxy and stainless steel finishes

We have AC and DC controls that are performance matched to our Washguard® 3-Phase AC and DC motors. Our AC inverter offering includes white epoxy, stainless steel or plastic enclosures that meet IP65/IP54 enclosure protection. We offer both our Micro Series line and our Vector duty series line having washdown duty protection. Our DC washdown duty controls are SCR rated for either permanent magnet or shunt wound DC motors. We also offer a washdown duty regenerative SCR control that is designed for high cycling and forward and reverse applications.

WASHGUARD® AC CONTROL BENEFITS:

- Stainless steel, epoxy painted or plastic enclosure protection
- Micro series controls have an intuitive alphanumeric display
- Vector Series have a 6-button display interface
- Multiple pre-set speed function
- Forward and reverse
- Programmable acceleration and deceleration times
- Password protected
- Serial communication port for interface
- Designs for both Single-Phase and Three-Phase input – Three-Phase output

White Epoxy Washguard® AC Controls

- ½HP to 125HP
- 200-240 / 400-480 and 480-590 input voltage

Stainless Steel Washguard® AC Controls

- ½HP to 20HP
- 200-240 / 400-480 and 480-590 input voltage

Vector Series Washguard® AC Controls

- Plastic enclosure
- ½HP to 30HP
- 200-240 / 400-480 and 480-590 voltage

WASHGUARD® DC CONTROL BENEFITS:

- SCR type controls
- NEMA 4X enclosure protection
- Reversing and non-reversing designs
- Regenerative – four quadrant designs

Washguard® DC Controls

- 1/8HP to 3HP
- 10 amp and 15 amp output
- Single-Phase – 115V and 230V input
- DC – 90V and 180V output

There's a LEESON Washguard[®] Motor for every location in your facility.

LEESON offers more than 200 off-the-shelf solutions to everyday washdown motor needs. What's more, LEESON offers washdown-rated gear reducers and AC and DC controls to compliment our washdown motor line. And, when you need a specially engineered custom solution to your washdown application, think LEESON. Our flexible manufacturing processes enable custom products to be manufactured in small or large quantities.
