

YASKAWA

GA800

AC Drives for Industrial Applications

Easy, Powerful, and Extremely Reliable...

At Yaskawa, we know your time is valuable. That's why we've designed this variable speed drive to exceed your expectations. Offering world class Yaskawa quality, along with intuitive interaction and high flexibility, the GA800 delivers powerful torque and precise control. Look no further than GA800 for all your variable speed needs.

... That's Our Commitment to You

Designed to control traditional and emerging motor technologies through 600 HP, the GA800 handles applications ranging from simple fans and pumps to high performance test dynamometers requiring precise regulation.

In addition to its robust and powerful design, the GA800 provides highly flexible network communications, embedded functional safety, and easy-to-use tools featuring mobile device connectivity.

200 - 240 VAC
1 - 150 HP

380 - 480 VAC
1 - 600 HP

Making it Easy for You

- Forget the learning curve. Let GA800 guide you through its Setup Wizard to get you up and running in a snap!
- Enjoy the GA800's intuitive keypad with a vivid display and a host of friendly features.
- Experience ultimate ease-of-use and flexibility with DriveWizard PC and Mobile tools featuring Bluetooth® connectivity and cloud services.

Making it Flexible for You

- Easily and impressively control all major 3-phase motors.
- Connect and control the GA800 from your favorite network.
- Customize GA800 from its rich set of control features.

Making it Sustainable for You

- Embedded Functional Safety reduces your down-time.
- Enjoy long life with conformal coated circuit boards and solutions for harsh environments.
- Electrical design that's friendly to your power system and surrounding equipment.
- Produced with materials responsible to our planet.

Bluetooth® and the Bluetooth logo are registered trademarks of Bluetooth SIG, Inc. USA.

One for All

GA800 can precisely control your induction, permanent magnet, and synchronous reluctance motors providing versatility to run a variety of applications with just one drive. Say goodbye to the days of complex motor setup!

Motor Control Benefits/Features:

Flexible Motor Control

- Controls traditional and emerging motor technologies
- Easy and accurate autotuning provides optimized performance for each connected motor
- Optimized control avoids tripping even with aggressive settings
- Impressive open loop vector control
- Precise and high response closed loop vector control
- 590Hz maximum frequency
- 110% normal duty overload
- 150% heavy duty overload
- Integrated brake transistor up to 125 HP (ND) / 100 HP (HD)

Save Even MORE Energy!

Smart Power Saver mode reduces energy consumption at reduced speeds and loads for maximum efficiency and minimum operating costs

Any Way You Want It

Optimize your space by taking advantage of GA800's installation flexibility.

Install Standard (IP20) Drives In Cabinets With Zero Side Clearance

Utilize NEMA 1 Kit For Cabinet-Less Installations

Install With Heatsink Exposed For Optimized Heat Management

Use standard drives with external heatsink for NEMA 1 environments

Use flange drives with external heatsink for NEMA 12 (dusty) environments

Mount Horizontally Through 100 HP

Get Connected

Whether you prefer discrete / analog control or high speed communication, GA800 covers all your needs for control interface and provides robust connections on all major networks.

Configurations

Ring

Star

Line

Note: Node limitation dependent on network specific standards, other equipment, required network performance.

- Connect with standard network modules for conventional and robust star configurations
- Connect with dual port network modules and daisy-chain your connections for ring or line configurations. A great choice for decentralized drives
- Maintain control power with main power removed by supplying your 24VDC to the GA800's auxiliary input
- Connect up to 5 drives from a single network node by adding slave drives over the GA800's embedded RS-485

DeviceNet

EtherNet/IP

EtherCAT

ETHERNET POWERLINK

CC-Link

CANopen

Modbus

MECHATROLINK

PROFIBUS NET

PROFINET

Removable standard control terminal board for easy wiring connections.

Standard Inputs

- RS-485 Modbus RTU
- 8 digital, 3 analog, 1 pulse
- Safe Torque Off
- 24VDC auxiliary power

Standard Outputs

- 4 digital, 2 analog, 1 pulse
- 24VDC supply for external sensors

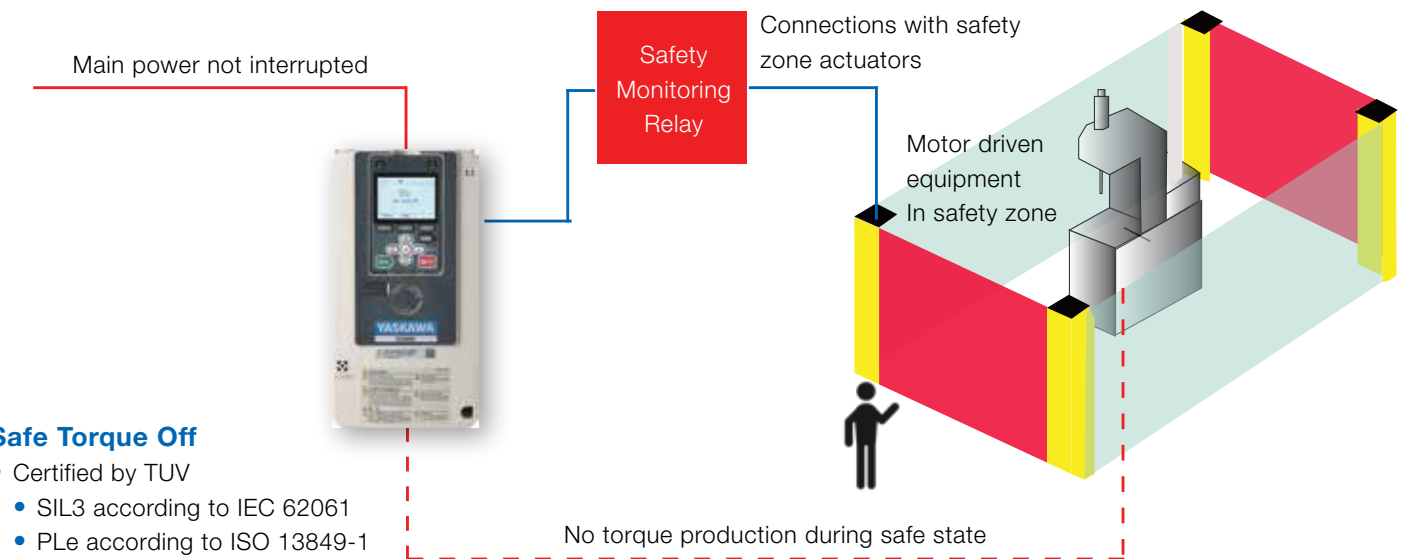

Expansion modules available for additional I/O and encoder feedback

Zone Defense

When your application requires human interaction with mechanical dangers, the GA800 can help with its embedded functional safety.

A standard feature of the GA800 is Safe Torque Off, which prevents torque production to the motor even while main input power remains applied. This minimizes your downtime when people enter your mechanical safety zone. Normal operation is resumed faster.

Safe Torque Off

- Certified by TUV
 - SIL3 according to IEC 62061
 - PLe according to ISO 13849-1
- Programmable EDM monitor output for status

For the Long Haul

Always abreast of new technology, and at the same time providing products you can trust to survive demanding applications. Robustness and longevity. These are the cornerstones of Yaskawa products.

Product Testing

All Yaskawa products undergo rigorous testing during the design phase to ensure long life and problem-free operation.

- Maximum Temperature
- Maximum Load
- Maximum Voltage and Hi-Pot
- Electromagnetic Compatibility

Product Certification

Designed to the most stringent electrothermal safety standards and certified with all major worldwide agencies

- UL
- CSA
- CE
- RCM
- KCC

Planet Fitness

Whether your concern is efficiency, power quality, or non-hazardous materials, Yaskawa products help you contribute to a healthy and sustainable environment.

Coated Board Protection

In addition to an extremely robust design, we understand your environment may be less than perfect for electronics. That's why we've stacked the deck in your favor with conformal coating on all circuit boards to provide some "extra protection", meeting IEC 60721-3-3, 3C2, 3S3 levels.

Your Power-Friendly Partner

- Ability to control highly efficient permanent magnet motors
- Integrated DC reactors and a 12-Pulse-Ready version for improved power factor and harmonic distortion
- Option for integrated EMC filtering to comply with radio frequency interference standards

RoHS
compliant

Zero Tolerance

Rest assured that Yaskawa complies with strict environmental standards relative to use of hazardous substances.

Products are certified to the RoHS 2 Directive (2011/65/EU), which permits very small levels of lead, mercury, cadmium and others substances.

Convenient and Effortless

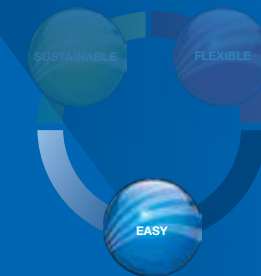

It's so easy! Use the GA800's resident keypad, your mobile device, or your personal computer. Whatever you choose, enjoy easy navigation and guided wizards for configuration, monitoring, and troubleshooting.

DriveWizard Mobile

- Optional Bluetooth® enabled keypad provides wireless connection to your smart-phone or tablet where you can experience colorful attractive dialog with the GA800.
- Alternatively, connect via USB, and interface with the GA800 even without main power!

Let Us Keep That Somewhere Safe for You!

Take advantage of free cloud service from Yaskawa. Access the Yaskawa Drive Cloud from anywhere in the world via DriveWizard Mobile or from the web.

Yaskawa Drive Cloud

- Scan the GA800's QR code to locate existing cloud data or initiate new cloud data with drive identification pre-populated.
- Register, store and retrieve your personal drive configuration files unique to each serial number.
- Free storage of drive information including photos and other common file types.

Push My Buttons!

The GA800 standard interface provides you with a crisp large display that's intuitive and loaded with capability.

Copy Function

Multiple parameter sets can be stored and easily transferred to additional drives

High-Resolution Display

Large multi-language screen with contrast and backlight control

Automatic Back-up Function

Periodically copies parameters to keypad memory for safe keeping

Advanced Keypad Navigation

Fast scrolling, function keys, and shortcuts reduce your setup time

Setup Wizard

Reduce configuration time using the setup wizard without any drive parameter knowledge.

Micro SD Storage

Expandable memory (up to 32GB) for data logging storage

Real-Time Clock

For stamping your events with dates and times. Battery powered.

Optional LCD Keypad With Bluetooth®

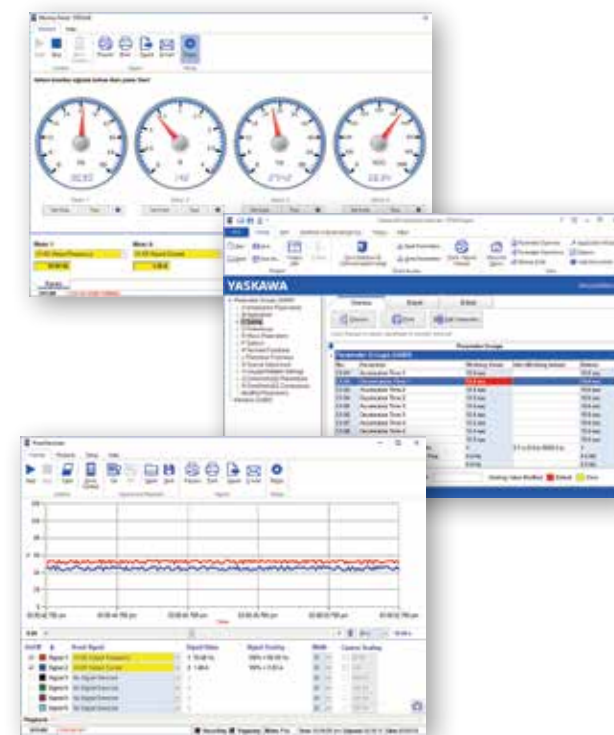

Wireless communication with your mobile device

Powerful Made Easy

Unleash all that GA800 has to offer with Yaskawa's intuitive and flexible PC-based interface tools. Enjoy DriveWizard® Desktop for configuring, advanced monitoring, trending, and file storage. Create custom functions with DriveWorksEZ®.

DriveWizard Desktop

- Connect via USB and interface with the GA800 even without main power!
- Create configurations offline, then later connect and download them to GA800.
- Monitor a dashboard of dynamic variables and discrete information.
- Chart your process with up to 6 channels of recorded data.
- Create reports for exporting and emailing.

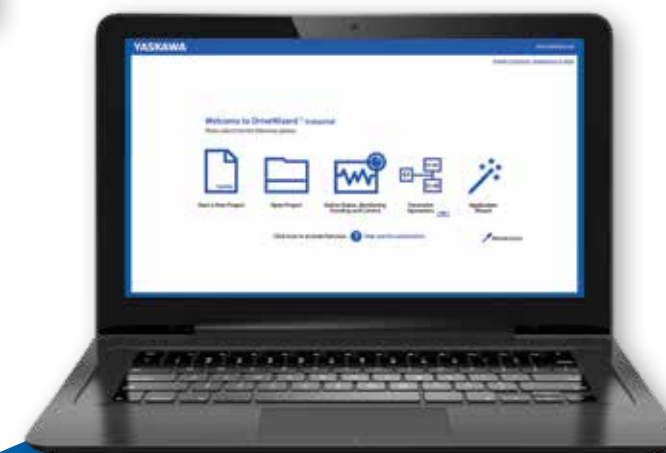

DriveWorksEZ

- Drag-n-drop graphical interface
- Select from 280+ function blocks
- Logic/math functions
- Timers/counters
- Up to 200 connections, 400 blocks
- Constant scan cycle

DriveWorksEZ

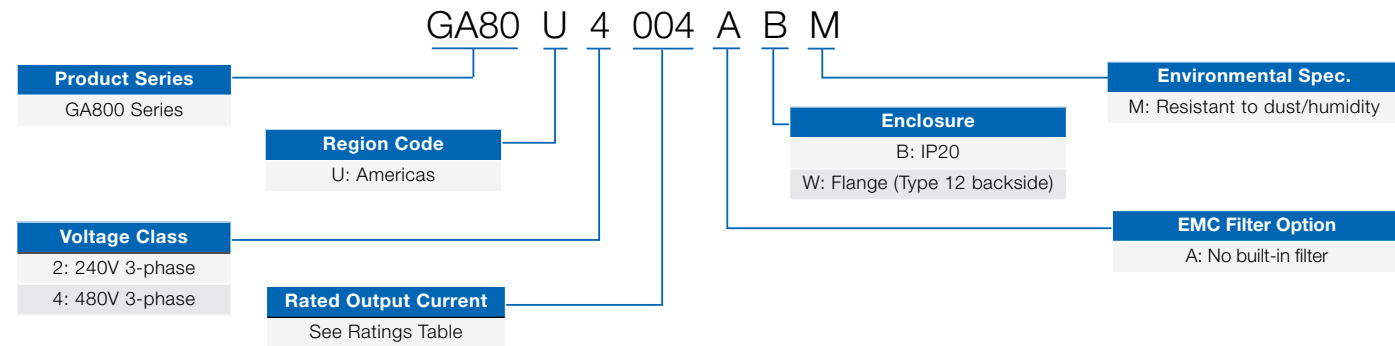

DriveWizard and DriveWorksEZ are registered trademarks of Yaskawa.

Specifications

Item	Specification
Overload Capacity	150% for 60 sec. (HD), 110% for 60 sec. (ND)
Output Frequency	0 to 590 Hz
Control Methods	Open and Closed Loop Current Vector Open and Closed Loop V/f
Motor Types	Induction Surface Permanent Magnet Interior Permanent Magnet Synchronous Reluctance
Protective Design Types	IP20 (NEMA 1 kit available) Flange (Type 12 backside)
Ambient Operating Temperature	-10 to +50°C (IP20 and flange types) -10 to +40°C (with NEMA 1 kit) Up to +60°C (with derate)
Global Certifications	UL, CSA, CE, RCM, RoHS
Functional Safety	Safe Torque Off, SIL3 according to IEC 62061, PLe according to ISO 13849-1
Standard I/O	(8) multi-function digital inputs (24Vdc) (3) multi-function analog inputs (0 +/- 10 VDC, 4-20 mA) (1) multi-function pulse inputs (2) Safe Torque Off inputs (1) fault relay output (form C) (3) multi-function relay outputs (form A)
I/O Expansion	(2) multi-function analog output (0 +/- 10 VDC, 4-20mA) (1) multi-function pulse output (3) Analog Inputs -10 to +10V, 13 bit plus sign, 4 to 20mA (16) Digital Inputs (2) Analog Outputs (-10 to +10V, 11 bit magnitude) (8) Digital Outputs (6 transistor, 2 relay)
Feedback (optional)	Incremental Absolute (Stegmann, Heidenhain, Resolver)
Network Communication	Standard: Modbus RTU, RS-485, 115 kbps Optional: EtherNet/IP, DeviceNet, Modbus TCP/IP, PROFINET, PROFIBUS-DP
Speed Control Range	1500:1 Closed Loop Vector (IM and PM Motors) 200:1 Open Loop Vector (IM Motors) 100:1 Open Loop Vector (PM Motors)
Speed Control Accuracy	≤ 0.02%: Closed Loop Vector; ≤ 0.2%: Open Loop Vector
Speed Response	≥ 50 Hz: Closed Loop Vector (Induction Motors); ≥ 250 Hz: Closed Loop Vector (PM Motors) ≥ 20 Hz: Open Loop Vector (Induction Motors); ≥ 40 Hz: Open Loop Vector (PM Motors)
Function Block Diagrams	Up to 200 connections, 500us program scan time

Yaskawa is the leading global manufacturer of low and medium voltage variable frequency drives, servo systems, machine controllers and industrial robots. Our standard products, as well as tailor-made solutions, are well known and have a high reputation for outstanding quality and reliability.
